

Smarter Meetings with Video Conferencing Solutions by LG & Logitech

Utilizing best in class performance, the LG and Logitech solution allows effortless connectivity, productivity and video performance.

With our collaborative partnership you can be assured of fast, efficient and reliable video conferencing. Logitech, a global leader of peripherals for PC and video conferencing, and LG, a global leader in professional display, means the best of both worlds in one solution. Logitech's simple and intuitive video conferencing solutions and LG's extensive range of products will offer a seamless work environment overcoming any challenges faced by remote teams and the desire to interact.

The way we work is changing. The need for flexible hybrid-working solutions that help keep virtual and remote teams connected is increasing. As a result, many organizations have moved to video conferencing to stay connected. Schools now have virtual classrooms, medical appointments are now via telemedicine and business meetings happen online whether in the office or working from home. From public to private sector organizations life moves forward thanks to video collaboration.

The collaboration between LG and Logitech offer tailored video conferencing solutions to optimize the connection between your staff and customers alike.

Logitech and LG are bringing together core business strengths and advantage to offer outstanding solutions for video conferencing, content delivery and presentation capability. These collaborative solutions ensure the user experience is dynamic, simple, straightforward, eye-catching and engaging each and every time every time you need to communicate.

Collaborative Benefits:

- Simple and Intuitive Meeting Experience
- Scalable Solutions for All Rooms / Environments
- Reliable, Best-in-class Devices
- Reduced Costs

Supported software partners:

The strengths of LG display products and Logitech's conferencing technology combine to create an efficient solution for any meeting space. They ensure reliable and easy to use collaborative systems with outstanding displays that can display the most diverse and challenging content effortlessly.

logitech

Rally Bar Mini

Simplicity meets versatility with Rally Bar Mini, Logitech's most advanced all-in-one video bar for small meeting rooms and huddle spaces. With studio-quality audio and video, AI-driven performance, and flexible deployment options, Rally Bar Mini sets a new standard for small room collaboration. Featuring Appliance Mode, with built-in compute allowing you to run supported video conferencing applications such as Zoom directly on the device.

Rally Bar

Rally Bar delivers a powerful all-in-one video conferencing experience, featuring brilliant optics, automated PTZ, and high performance audio for midsize meeting rooms. With Rally Bar, video meetings can be just as natural and productive as face-to-face collaboration. Featuring Appliance Mode, with built-in computer allowing you to run supported video conferencing applications such as Zoom directly on the device.

Rally Plus

Logitech® Rally offers an Ultra-HD imaging system, delivering brilliantly sharp video, outstanding color, and exceptional optical accuracy at resolutions up to 4K. The modular audio system brings crisp, clear audio and unmatched voice clarity to the table. Rally comes standard with one speaker and one mic pod for medium and large sized meeting rooms. For larger spaces with 14 participants or more, Rally Plus offers two mic pods and two speakers for greater versatility out of the box.

LG Solutions

UHD Signage with Rally Bar Mini

Ultra HD and cutting-edge intelligence, UHD signage with Rally Bar Mini from LG enlivens colors.

Interactive Digital Board with Rally Bar

With differentiated cutting-edge touch technology, LG's interactive digital board series supports multi-touch & writing functions providing accurate drawing and authentic touch quality. In addition, the Air Class and web browsers support multi-directional communication and interactive learning.

All-in-one LED with Rally Plus

Our all-in-one LED Screen features a 130" or 136" large screen with no bezel. With superb picture quality powered by HDR10 Pro and immersive Surface Sound, attendees can get more focused and deeply engaged for more productive meetings.
